

## FRAX<sup>®</sup> Pad permissions and orders

The FRAX<sup>®</sup> Pad has been created by IOF to facilitate usage of the FRAX<sup>®</sup> tool in clinical settings. The pad features an officially authorized questionnaire which cannot be changed in any way or reproduced without IOF permission. Only official translations, provided by IOF, may be used.

The PDF questionnaire is provided on the IOF website for download. It may be printed out and photocopied individually in small quantities for use in a not-for-profit medical/clinical/educational setting. Please note that these are low resolution files which are only suitable for photocopy/home printer use. The actual FRAX<sup>®</sup> Pad must be requested via IOF.
